

Boom Concrete, Inc. WYOMING Certified Septic Tanks

BOOM CONCRETE, INC.
220 GIRARD AVENUE
PO BOX 437
NEWELL, SD 57760

PRECAST CONCRETE SEPTIC TANKS

BOOM CONCRETE septic tanks are designed and built with high quality components including specially formulated concrete, steel rebar, and concrete fiber, which is embedded throughout the tank.

BOOM CONCRETE Wyoming Certified septic tanks come in standard sizes of 1,000 gallons and 1,500 gallons. Septic tanks are kept in stock for immediate delivery.

BOOM CONCRETE will deliver to your site and set the tank in the prepared location.

Septic-WY	W	L	H	Riser Polylok	Weight
1000 Gal.	56"	106"	67"	6"	6 Ton
1500 Gal.	56"	144"	67"	6"	6 Ton
1500 Gal. 2 cmp	56"	144"	67"	6"	6 Ton

Septic System Survival

DO NOT use a garbage disposal.

DO NOT pour grease or oils down the drain.

DO NOT flush anything down the drain that is not biodegradable.

- Disposable Diapers
- Condoms
- Feminine Hygiene Products
- Anything Plastic
- Etc.

DO NOT discharge water softener regeneration to the system.

DO NOT use any type of additive in your system. They do not work and can actually cause you problems.

DO have your septic tanks pumped every 3-5 years.

DO have a second septic tank installed. This will reduce your solid output to your disposal field by approximately 25%.

- *1,000 Gal. - WY 1 Pc 1 Cmp*
- *1,500 Gal. - WY 1 Pc, 1 Cmp*
- *1,500 Gal. - WY 1 Pc, 2 Cmp*

- Complete tanks with no assembly.
- Quick and easy setting in the hole.
- Meet or exceed Wyoming State and County Codes.
- Tanks are extra-reinforced.
- Tanks are produced in a climate controlled, indoor plant.
- Each septic tank has 24" openings in the top of the tank to be used for servicing.
